

RV PARK BOAT PARKING

by permit only

Spots will be chosen/assigned in the order the Seasonal Campsites are picked. As the campsites are drawn and assigned that camper, if present, may chose the Boat Parking they desire from the available spots. If the camper is not present, and have requested a boat parking spot, the lowest numbered spot available will be assigned to them. If the Seasonal Camper had a boat parking spot for 2020 it will be assumed, they will be wanting a spot for the 2021 season as well.

The parking spots start with #1 on the north end and numbered going south. At present we have 21 parking spots on the gravel.

If you would like a different spot and someone else is willing to trade with you, that is fine. Please let us know if you are trading and to which one so we can update records.

Seasonal Boat Parking spots will again be \$180.00, payable by close of business April 1, 2021.

Temporary parking spots will be \$10.00 per week or \$35.00 per month, with permits available at the City Office or the Park Caretaker. Temporary spots may not be on gravel and may not have electricity readily available.

We will again be getting Boat Parking Stickers. Please put your parking sticker on the top of frame tubing by the hitch, or somewhere that it is easy to see.

Boats are not to be parked at the campsites, unless loading or unloading.
